

Fun Time with FAACT

How Diverse is Your Home?

Every day, we experience diversity, even we don't realize it. We see it both in and out of our homes. Have you ever wondered where everything in your home comes from? Whether we realize it or not, we can have things from all over the world right under our noses. Let's see what you can find in your home.

This is a fun family activity that should be completed with adult supervision. Safely check labels for everything from your living room cushions to the beauty products in your bathroom. The lists below give you ideas on where to look. Seek out tags and stickers on various items to see how many you can find from all over the country or even the world.
